

VISHNU

QA Engineer & Scrum Master | Manual · Automation · Agile Delivery

+91-90801 97960 | vishnuskalai21@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#) | Coimbatore, Tamil Nadu

SUMMARY

Results-driven QA Engineer with 1.5+ years of experience in manual testing, API validation, Gen AI-assisted QA workflows, and Agile delivery. Proven ability to identify critical defects — including security vulnerabilities in live production — and drive on-time releases through Scrum Master responsibilities. Hands-on with Playwright, Postman, Python, and Gen AI tools (ChatGPT, Gemini, Claude) for smarter, faster QA cycles.

SKILLS

Testing: Manual | Automation | Functional | Regression | Smoke | Sanity | API Testing | Cross-Browser

Frameworks: Playwright (JavaScript) | Katalon Studio

AI Tools: ChatGPT | Gemini | Claude — test generation, log analysis, bug reporting

Tools: Jira | Postman | Git | GitHub | VS Code

Languages: Python | JavaScript | SQL | HTML | CSS

Methodologies: Agile | Scrum | Sprint Planning | STLC | Defect Life Cycle

WORK EXPERIENCE

QA Engineer | Gyanmatrix Academy Pvt. Ltd. (Internship + Full-time) *Sept 2024 – Present*

- Designed and executed end-to-end test cases for the Digri web application — covering smoke, regression, sanity, and functional testing — using Jira Test Management for bug tracking and sprint visibility.
- Leveraged Gen AI (ChatGPT, Gemini, Claude) to generate test cases from Jira tickets and PRDs, cutting design time by ~50%, and used AI-assisted log analysis to produce structured, actionable bug reports.
- Identified high-severity security vulnerabilities — including sensitive data exposure in API responses and improper file upload handling — preventing critical production incidents.
- Served as acting Scrum Master: facilitated sprint ceremonies, owned the Jira board across dev and QA workflows, coordinated cross-team blockers, and ensured on-time product delivery.

Software Test Automation Internship | SmartInternz, Telangana *Dec 2023 – Feb 2024*

- Developed and executed automated test suites using Katalon Studio for Amazon and Cura Healthcare platforms, improving test coverage and reducing manual regression effort.

PROJECTS

Collaborative Content Creation Platform | *HTML · CSS · Git & GitHub*

- Built a multi-user web platform supporting content creation, editing, and publishing with role-based access control — including admin privileges and cross-user content sharing.

Automated File Organizer | *Python · Git & GitHub*

- Engineered a Python-based utility to automatically categorize files into organized subfolders by extension — including media, documents, and source code — significantly reducing manual sorting overhead.

EDUCATION

Master of Computer Applications (MCA) *Aug 2022 – Apr 2024*

Bachelor of Science in Information Technology (B.Sc. IT) *Jun 2019 – May 2022*

ACCOMPLISHMENTS

Secured 2nd Place at the Department-Level Hackathon (2023), demonstrating competitive problem-solving ability under time-constrained, team-based conditions.
